Date: 04/08/2015

1. Take the activation code sent to you via email to your generator.
2. Select your language on the control panel.
3. Enter the activation code by using arrow keys.
4. Activation is complete when screen says "Select Hour".
5. If you have any questions, consult the troubleshooting chart below or in your owners manual.

Activation Troubleshooting

CHOOSE LANGUAGE		TROUBLESHOOTING
<p>Display Reads:</p> 	<p>Use ARROW keys to scroll to desired language.</p> <p>Press ENTER to select.</p>	<p>If the wrong language is chosen, it can be changed later using the "edit" menu.</p>
<p>Display Reads:</p> 	<p>Press ENTER to begin the activation process.</p>	<p>If ESCAPE is pressed instead of ENTER, your generator will only run in manual mode (for test purposes) and NOT ACTIVATED will be displayed. You will need to remove the generator control panel fuse AND disconnect the T1, N1, N2 connector in the eternal connection box (if equipped) or disconnect the utility input (main breaker) to the transfer switch for 3-5 seconds. Reconnect and start over with step 1.</p>
<p>Display Reads:</p> 	<p>Note: Website reminder will display for 3-5 seconds.</p>	
ENTER ACTIVATION CODE (PASSCODE)		TROUBLESHOOTING
<p>Display Reads:</p> 	<p>Use ARROW keys to scroll and find the first number of your Activation Code.</p> <p>Press ENTER to select.</p> <p>Repeat this step until all digits have been entered.</p>	<p>Use ESCAPE to correct previous digits.</p>

<p>Display Reads:</p> 	<p>Activation is complete when all digits are entered above and your screen shows this display.</p> <p>Follow the controller prompts to continue setting the time function. Refer to your Owner's Manual with questions.</p>	<p>What happens if "Wrong Passcode Try Again" appears?</p> <p>Re-enter the activation code.</p> <p>If a second attempt is unsuccessful, check the number against the code given on activategen.com. If it is correct and the generator will not accept it, contact Call 1-888-9ACTIVATE (1-888-922-8482).</p>
