

Instructions for Submitting Proof of Skills Optimizations

1. For each Proof of Skills category, there will be a new “question” called “Graded Proof of Skills Rubric from Previous Submission”. When you submit an optimization for a particular category, you will have to submit a picture of your grade summary for all previous rounds of Proof of Skills submissions for that category. This will let us see what your scores were on questions that you don’t want to submit an optimization for.

Total Points	
19 / 26 pts	
Question 1	
Circuit Simulation	18 / 25 pts
1.1	Operation Point dc analysis 3 / 5 pts
1.2	I can label and identify Nodal Voltages in a circuit, creating a well labeled schematic. 3 / 5 pts
1.3	Transient analysis 2 / 5 pts
1.4	Parametric analysis 5 / 5 pts
1.5	AC analysis 5 / 5 pts

2. You only need to upload a new optimization submission for questions that you want to have regraded (the scores for questions you do not upload a new submission for will still be counted.)
3. For questions that you want to have regraded for optimization, you need to submit a screenshot of your grading rubric for that question at the top of your new submission. So, if you were to submit “Operation Point dc analysis” for optimization, you’d include this image at the top of your document for that question:

1.1	Operation Point dc analysis	3 / 5 pts
	+ 0 pts	incomplete
✓	+ 1 pt	correctly measure the resistor voltage
	+ 1 pt	I can change my schematic and plot background to white and cut and paste on an external document
	+ 1 pt	I can change the line thickness and color of my schematic and simulation output
✓	+ 1 pt	I can label the simulation output clearly with the circuit schematic component names
✓	+ 1 pt	I can intentionally show the most relevant part of a simulation by changing the simulation output window
	+ 5 pts	all complete
	+ 0 pts	format incorrect: please upload jpg, png or pdf files

This will let us know what you have already been awarded points for and help us identify where to look for improvements in your submission. Below this will be your submission to be regraded for that question
