

Q3 MATLAB and Simulink Basics

Prove your skill set in using tools for analytical calculations.

Q3.1 I have completed the MATLAB Onramp Tutorial

Please submit your certificate.

I was able to finish going through the tutorial and I learned many functions that can be written in MATLAB Onramp. Some of them include basic calculations, loops, if, else, elseif, and other boolean logic functions, matrix functions, graphing, and much more. Most of the program seems to be very similar to the Python coding language.

Course Completion Certificate

Frank Martino

has successfully completed **100%** of the self-paced training course

MATLAB Onramp

A handwritten signature in black ink, appearing to read 'Craig Santos', is written over a horizontal line.
